Here you enter INCOME in either US Funds or Canadian Funds. Enter US FUNDS Income on the US Income Data Capture side (Left) and Enter Canadian Incomes on the Canadian Income Side (RIGHT). You do not have to enter the source or client name who paid you unless you wish to do so for income source tracking. Instead, just enter your Canadian funds income in the appropriate column. Column (1) for Incomes that included GST/HST. If you are a Broker your income would not include GST/HST so enter your income in Column (2)
