This worksheet report is accessed from the Fuel Purchase and Driver Trip Report worksheet to allow you if required to easily remember the State/Province abbreviation applicable to each state or province when entering the trip province or state information and not sure of the correct abbreviation. - You are now at the end of the TruckersBooks User Guide and Learning center page. We hope that you will find using this system easy to use and easy to master and enjoy the benefits of being in control of your bookkeeping information and source documents.

Our hope in creating this program is to give you the tools to easily know your business numbers and be in control of your bookkeeping information without the need for any formal bookkeeping training or experience and without having to learn any special software formulas.

This is an easy to use Excel Spreadsheet system that you simply enter information in already designed expense columns. You do not have to do any totalling of columns or information. In addition when entering expenses you will enter the total including GST/HST from the invoice bottom-line and the system will calculate the GSH/HST payable or ITC Refund due.
